

Code-Layout, Readability and Reusability

Date: 25 September 2026
Team ID: 6ab2220abee0b08a2d2c65d0
Project Name: Auto Ticket Classification using Flow Designer
Maximum Marks: 5 Marks

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes/No/Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Standard JS indentation
2	Proper File Structure	Files and folders are logically organized	Yes	Separated by module
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	e.g., shortDesc, category
4	Function / Method Names	Functions are descriptively named	Yes	e.g., executeRule()
5	Code Comments	Inline and block comments explain logic	Yes	Each branch commented
6	Modular Design	Code is split into reusable functions/modules	Yes	Business Rule is modular
7	No Redundant Code	Duplicate or unused code is removed	Yes	Lean codebase
8	Error Handling	Exceptions and errors are handled gracefully	Yes	try-catch in API wrapper

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High/Medium/Low)
1	Auto-Classify Business Rule	Server-Side JavaScript	Any ServiceNow table	High
2	Flow Designer Email Action	Flow Designer (No-Code)	Any workflow trigger	High
3	Express.js API Wrapper	Node.js / Express	External frontends	Medium
4	classificationEngine.js	JavaScript	Input validation layer	Medium

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Clean modular JS with proper indentation
Readability	5	Descriptive variable/function names throughout
Reusability	4	Business Rule can be cloned to other tables
Documentation / Comments	4	Inline comments on every conditional branch
Overall Score	4.5 / 5	Production-grade quality
