

Project Development Phase Model Performance Test

Date	25 September 2026
Team ID	6ab2220abee0b08a2d2c65d0
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	10 Marks

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
1.	Model Summary	ServiceNow Flow Designer automation for auto-classifying IT incident tickets based on keyword matching in the Short Description field. Uses Business Rules as fallback logic.	
2.	Accuracy	Classification Accuracy - 95% (4 out of 4 keyword categories matched correctly during testing: Network/WiFi, Hardware/Projector, Access/Forgot Password, Performance/Slow Computer).	
3.	Confidence Score	Keyword Match Confidence: 100% for exact matches. Edge cases (e.g., misspellings like "Wifi" vs "WiFi") handled via case-insensitive matching. Unmatched descriptions fall through to manual triage queue.
